

World of Wonders

CDA Program

At WOW, we are committed to supporting the growth and professional development of our team. One way we do this is by offering a free Child Development Associate (CDA) program to eligible employees.

What We Provide

- All costs covered – Books, coursework, testing, and fees are fully paid for by WOW.
- Mentorship support – Each participant is paired with an experienced mentor who will guide and support them through the CDA process.
- Hands-on learning – Staff are able to apply what they learn directly in the classroom, building both confidence and competence.

Why It Matters

Earning your CDA is an important milestone in your career in early childhood education. It strengthens your teaching skills, boosts your professional qualifications, and can open doors to future advancement.

Employees who complete the program while working at WOW will receive up to a \$1 an hour raise.

How to Get Started

Employees interested in completing their CDA should speak with the administrative team for enrollment details and next steps. We will walk you through the application process and connect you with your mentor. WOW is proud to invest in your growth as an early childhood professional! Employees must be at WOW for 30 days prior to starting the CDA program
