

World of Wonders

Support for Families of Children with Special Needs

At WOW, we know that navigating the world of special services and evaluations can feel overwhelming. To help, we offer one-on-one support for employees and families who need guidance.

What We Provide

- Evaluation Process Guidance – Learn how the evaluation process works and what to expect at each step.
- Referrals and Resources – Get connected to local specialists, early intervention programs, and community supports.
- System Navigation – Assistance in understanding school district services, IEP/504 processes, and available state resources.
- Ongoing Support – Someone to walk with you through the paperwork, meetings, and follow-up so you don't feel alone in the process.

How it Works

- Schedule a private meeting with the Executive Director or the designated Inclusion Specialist.
- Bring any paperwork, notes, or concerns you already have.
- Together we'll create a step-by-step plan to help your child get the support they need.

Confidentiality

All meetings are confidential and designed to provide guidance and encouragement as you advocate for your child.
